

Dr. Guimin Gao SOPH Public Health Research Day Award Recipient

April 09, 2009

Dr. Gao, an Assistant Professor in the Section on Statistical Genetics in the Department of Biostatistics at UAB, came in third place for faculty members. Guimin's poster was entitled "Weighted Multiple Hypothesis Testing Procedures".

On Thu 4/9/2009, the School of Public Health (SOPH) at the University of Alabama at Birmingham hosted the inaugural Public Health Research Day, co-sponsored by Pfizer Inc., as part of National Public Health Week. This will be an annual opportunity for faculty, students, and others involved in research at the SOPH to showcase their work for UAB colleagues and others across the metropolitan area interested in the newest thinking in public health. The four categories of participants were: masters students, doctoral students, postdoctoral fellows, and faculty. Participants will give a 10-minute oral presentation of their research to a panel of judges and the top three presenters in each category received a plaque for their achievement.
