Activities

- Provide technical assistance to promote growth and sustainability of community partnerships
- Facilitate academic-community partnerships to support CBPR
- Provide program management, support, and coordination for CBPR projects
- Assist in identifying and meeting education and training needs of academic-community research teams
- Create academic and community awareness and use of Center Units, resources, programs, projects & products (dissemination, replication)
- Prepare and support community partner to participate in NCC Conference

Outputs

- Up-to-date Center Website
- List of gaps in Center Infrastructure
- Plan for addressing Infrastructure Gaps
- Birmingham Community Health Exchange
- Education/compliance support for Cooper Green patients with diabetes
- Orientation Materials for Nursing Students
- Awareness of CBPR Funding Opportunities
- Increased number CBPR Projects
- CBPR Development Curriculum & materials
- IRB Training
- CHA Core Skills Training
- Partnerships
- Academic/Community Events, Presentations, Workshops
- NCC Partner Participation

Outcomes

- Increased awareness of Center Activities/Initiatives
- Increased capacity for CBPR
- Increased resources
- Enhanced academic-community capacity to implement/sustain programs aimed at improving population health and eliminating health disparities
- Increased research conducted by academic-community research teams
- Robust local community capacity to participate in national conferences and national research agenda aimed at improving population health and eliminating health disparities
- Increased research conducted by academic-community research teams
- Increased partnerships/collaboration
- Increased dissemination of research and products
- Increased knowledge and skills
- Increased partnerships/collaboration
- Increased awareness/giving to Community Initiatives
- Increased patient compliance
- Increased awareness and giving to Community Initiatives
- Increased capacity for CBPR
- Increased community partner engagement
- Increased national involvement by local academic-community research team members

Inputs

- National, Regional, Local Health Priorities and Health Injustice
- Community Partners
  - Congregations for Public Health
  - West Central Alabama Community Health League
  - JCDH Health Action Partnership
  - Birmingham Youth Services
  - 100 Black Men of America
  - Children’s Policy Council
- Exec. Committee Partners
  - Director, Health Promotion & Disease Prevention, ADPH
  - President, WCACHIL
  - Health Officer, JCDH
  - Executive Director, CPH
- Other UAB Resources
  - Lister Hill Center for Health Policy
  - Minority Health & Research Center
  - Center For Clinical & Translational Science
  - Center for Outcomes Research
  - UWIRC Program
  - Council of Center Directors
  - One Great Community
  - UAB Center for AIDS Research (CFAR)
- CDC PRC Office Oversight & Support

Outcomes

- Short Term
- Intermediate
- Long Term

- Reduction of Health Disparities
- Improved Community and Population Health

Community Engagement
Inputs
- National, Regional, Local Health Priorities and Health Injustice

Activities
- Disseminate information about Center activities
- Increase visibility of the Center locally and nationally
- Provide technical assistance to Center faculty and staff and to CBPR partners
- Complete publications for past Core Research Project, Flying Sparks

Outputs
- Website featuring activities and products
- Publication/Presentation Strategy
- Online Training
- Health Promotion Materials

Short Term Outcomes
- Increased communication between Center, partners and community
- Increased dissemination
- Increased knowledge & skills

Intermediate Outcomes
- Quality information and products available to diverse stakeholders in community
- Quality information and products available to researchers
- Printed and web-based training tools, educational and marketing products, Media products, Peer-reviewed articles and presentations

Long Term Outcomes
- Reduction of Health Disparities
- Improved Community and Population Health

Community Partners
- Congregations for Public Health
- West Central Alabama Community Health League
- JCDH Health Action Partnership
- Birmingham Youth Services
- 100 Black Men of America
- Children’s Policy Council

Exec. Committee Partners
- Director, Health Promotion & Disease Prevention, ADPH
- President, WCACHIL
- Health Officer, JCDH
- Executive Director, CPH

Other UAB Resources
- Lister Hill Center for Health Policy
- Minority Health & Research Center
- Center for Clinical & Translational Science
- Center for Outcomes Research
- UWIRC Program
- Council of Center Directors
- One Great Community
- UAB Center for AIDS Research (CFAR)
Activities

- Maintain the operating capacity of the Training Unit
- Provide training support for Core Research Team members
- Expand Community Health Scholars Program to support development of researchers' CBPR capacities
- Assist in development and delivery of CHA Training and Support Program
- Implement targeted training, technical assistance, and mentoring learning activities for community and academic partners

Outputs

- Operating and Resource needs report
- List of Priorities and Training Initiatives
- Refresher Orientation
- Up-to-date Training Curriculum & Materials (including online)
- SIP of Knowledge Presentations
- Ministerial Public Health Certificates
- Internship & Field Practica placements and reports
- CPH Congregations trained in NHLBI With Every Heartbeat is Life Heart Health Curriculum
- CPH Congregations trained in Body & Soul/ Peer Counseling Curriculum
- Annual Black Belt Institute

Outcomes

- Increased awareness of Center Activities & Initiatives
- Improved knowledge/skills
- Increased CBPR Practical Experience for students
- Long Term
  - Reduction of Health Disparities
  - Improved Community and Population Health
- Short Term
  - Improved knowledge/skills
  - Community & Academic partners consolidate their talents and skills toward the completion of health promotion and disease prevention needs assessments and toward the development of research agenda for new CBPR studies relevant to community needs.

Inputs

- National, Regional, Local Health Priorities and Health Injustice
- Community Partners
  - Congregations for Public Health
  - West Central Alabama Community Health League
  - JCDH Health Action Partnership
  - Birmingham Youth Services
  - 100 Black Men of America
  - Children's Policy Council
- Exec. Committee Partners
  - Director, Health Promotion & Disease Prevention, ADPH
  - President, WCACHIL
  - Health Officer, JCDH
  - Executive Director, CPH
- Other UAB Resources
  - Lister Hill Center for Health Policy
  - Minority Health & Research Center
  - Center For Clinical & Translational Science
  - Center for Outcomes Research
  - UWIRC Program
  - Council of Center Directors
  - One Great Community
  - UAB Center for AIDS Research (CFAR)
  - CDC PRC Office Oversight & Support

Training
Activities

Disseminate Phase 1 Results

Preliminary Analysis of Phase 2.1 data set

Prepare for Phase 2.2 pilot intervention to increase HIV testing uptake and reduce HIV Risk Behaviors (recruitment/data collection to occur in Year 5)

Outputs

Abstracts/Presentations

Manuscripts/Publications

Follow-Up Interview data

Data findings

Appropriate evidence-based intervention plan for Phase 2.2

IRB Approval

Appropriate pilot intervention venues

Updated study manual

Pilot intervention staff

Outcomes

Short Term

Intermediate

Long Term

Advanced knowledge of individual, social, and community contributors to resilience, risk, and health outcomes among “emerging adults” aged 15-25 years who are transitioning from adolescence to adulthood while living in disadvantaged urban neighborhoods

Decrease in risky or unhealthy behaviors

Use of knowledge to develop a social network-based preventive intervention that promotes resilience and targets health-relevant behaviors, including substance misuse, unsafe sexual practices, and obesity, thereby helping reduce the documented “urban health penalty”

Reduction of Health Disparities

Improved Community and Population Health

Inputs

National, Regional, Local Health Priorities and Health Injustice

Community Partners

Congregations for Public Health

West Central Alabama Community Health League

JCDH Health Action Partnership

Birmingham Youth Services

100 Black Men of America
