A statement of career goals is required as part of the application for admission to the School of Public Health. The Department of Health Care Organization and Policy/MCH concentration asks applicants to succinctly address the following questions in their prepared statement of career goals. Please do not use a question/answer format.

1. What are your career goals and objectives, e.g., in what future professional positions, types of organizations/agencies, and locations do you see yourself, and how will this graduate degree help you achieve your career aspirations?

2. Describe previous educational, work and volunteer experiences that have helped interest, motivate and prepare you for undertaking graduate study and a professional career in maternal and child health (MCH) and public health, e.g., what background, interests, knowledge, skills, strengths and resolve do you bring to this course of study?

3. What are your learning objectives for this graduate course of study, e.g., what competencies, knowledge and skills need strengthening, and which of our program’s focus areas is of greatest interest to you: General MCH Policy and Leadership or MCH Policy and Leadership with a focus on International Health and Global Studies?

4. How did you learn about our MPH program, why did you choose to apply, and why would you choose to enroll in this graduate program over another?

5. Briefly provide any additional information you would like us to consider in evaluating your application for admission to this department.
