THE CARMICHAEL FUND FOR GRADUATE STUDENTS IN BIO SCIENCES

The Fund provides stipend support for graduate students in biomedical sciences at The University of Alabama at Birmingham in accordance with the Carmichael will.

One or more awards will be made to students who have been accepted by the Graduate School and approved by the Carmichael Scholarship Committee. Carmichael Scholars will be selected on the basis of academic achievement.

ELIGIBILITY

Only students who have been admitted for graduate study in one of the biomedical sciences graduate programs at The University of Alabama at Birmingham are eligible for this award.

TERMS AND CONDITIONS

The amount of the stipend will be announced annually by the Carmichael Committee.

Each Carmichael Scholar will receive a one-year appointment, which may be renewed for an additional term at the discretion of the Committee. In no case, however, should a student receive more than two years of support.

Carmichael Scholars must be full-time graduate students at The University of Alabama at Birmingham, and may not engage in other remunerative activities, either on or off campus, except in unusual cases which must have prior approval by the Committee.

An annual report on the student’s progress will be required from the graduate sponsor.

NOMINATION PROCEDURE

Nominations will be made by the biosciences graduate program directors to the Carmichael Scholarship Committee. Instructions and other requirements will be provided by the Carmichael Committee. An interview with the Committee may be required.
The Marie and Emmett Carmichael Fund for Graduate Students in Biosciences was established in 1988.

Mrs. Marie Carmichael is remembered as the gracious lady who guided her husband’s career and provided counsel and encouragement. She was a member of the First Church of Christ Scientists, and was active in Town and Gown Theater and the Birmingham Music Club.

The will of Mrs. Marie Van Hood Carmichael, probated in 1988, established the Marie and Emmett Carmichael Fund for Graduate Students in Biosciences. The income from the Fund will provide stipends for students pursuing the M.S. or Ph.D. degree at The University of Alabama at Birmingham in one of the biomedical sciences. The stipend is to be awarded on the basis of academic achievement.

Establishment of this Fund reflects the Carmichaels’ confidence in students and their willingness to assist students in reaching career goals.
