Outcomes Position Announcement

The Department of Health Care Organization and Policy, School of Public Health, University of Alabama at Birmingham seeks an assistant professor, tenure-track faculty member, but will consider other ranks (tenure status commensurate with qualifications). The successful candidate will hold a Ph.D. or equivalent degree in a quantitative field such as economics, epidemiology, policy analysis, or related area. The candidate should have clear research interests in health policy, health services and outcomes research, as well as an interest in research methods related to these fields. We are particularly interested in individuals with expertise in the use of administrative claims data in support of outcomes and policy research. The candidate will be expected to mount an independent research agenda and collaborate with others in the department, as well as other social scientists and clinicians in an interdisciplinary setting. The candidate will have demonstrated success, or great promise, in obtaining extramural funding to support his or her research agenda. Applicants should send a letter of interest, curriculum vita, and the names of references. A pre-employment background investigation is performed on candidates selected for employment. UAB is an Equal Opportunity/Affirmative Action Employer committed to fostering a diverse, equitable and family-friendly environment in which all faculty and staff can excel and achieve work/life balance irrespective of ethnicity, gender, faith, gender identity and expression as well as sexual orientation. UAB also encourages applications from individuals with disabilities and veterans.
