Researchers Offer States and Communities Technical Assistance in Tobacco Control

**Principal Investigator** PRC Program, cdcinfo@cdc.gov

**Project Identifier** State and Community Partnerships in Tobacco Control - SIP 99-017

**Funding Source** Office on Smoking and Health

**Project Status** Not active

**Host Institution** University of Alabama at Birmingham: Center for the Study of Community Health
University of Colorado Denver (previous center): Rocky Mountain Prevention Research Center
University of Minnesota: Healthy Youth Development Prevention Research Center
University of New Mexico Health Sciences Center: Prevention & Population Sciences
University of Texas Health Science Center at Houston (previous center): University of Texas Prevention Research Center
West Virginia University: West Virginia Prevention Research Center
University of Oklahoma (previous center): Prevention Research Center

**Health Topics** Tobacco prevention and control | Training & technical assistance

Researchers at seven prevention research centers are collaborating to provide technical assistance to help state health departments enhance tobacco control research and activities at the state and community levels. The researchers are identifying best practices in program planning and evaluation and in the design of prevention and control programs, as well as providing guidelines for population-based programs. They have also made recommendations to enhance communication between health departments and national, state, and local tobacco control partners.

**Research setting**

State(s)

**Race or ethnicity**

No specific focus
