Presents the 14th Annual

GLENWOOD ENDOWED LECTURE

Patrick C. Friman, PhD

April 13, 2018
11:00 am - 12:00 pm

EIBI, ASD & the Forward March of Behavior Analysis

Parenting Expert Dr. Friman is the Vice President of Behavioral Health at Boys Town and a Clinical Professor of Pediatrics at the University of Nebraska Medical Center. At the conclusion of his presentation, participants will be able to describe the fundamental attribution error & its relevance to behavior analysis, describe the core idea in behavior analysis & describe why the core idea in behavior analysis is superior to more popular ideas about behavior (especially problem behavior).
