Nengjun Yi, PhD promoted to Professor

August 13, 2012

Congratulations are in order to Dr. Nengjun Yi, who has been promoted to the rank of Professor. Dr. Yi joined the faculty of the University of Alabama at Birmingham in 2002, and has worked as an Associate Professor (with tenure) since 2005, in the Department of Biostatistics, the Section on Statistical Genetics. In 2011, Dr. Yi was selected for the Sir David Cox Endowed Professorship in Biostatistics in the UAB School of Public Health. His research interests include statistical genetics, Bayesian statistics, model selection, and Markov chain Monte Carlo (MCMC) algorithms. He is particularly interested in the development of statistical and computational methods for identifying multiple interacting genes for complex traits.
