Dr. Hemant K. Tiwari receives 3-year NHGRI grant, “Short Course on Next-Generation Sequencing: Technology and Statistical Methods”

April 28, 2011

Dr. Hemant K. Tiwari, William “Student” Sealy Gosset Endowed Associate Professor in Biostatistics at the University of Alabama at Birmingham (UAB), has been awarded an R25 grant from the National Human Genome Research Institute (NHGRI). This grant will offer annual four day short courses on next-generation sequencing which will continue the proud tradition of the intensive, hands-on training spearheaded by UAB’s Section on Statistical Genetics within the Department of Biostatistics.

Please check back at the course website, http://www.soph.uab.edu/ssg/courses, for upcoming developments.
